5. Home Replacement

In the event a residence is damaged by fire or other casualty, flood, wind, or other Act of God, Palm Shores may accept the insurance adjuster's estimate of damage or at its sole option and expense, may require inspection by a qualified manufactured home representative to ascertain, on a percentage basis, the extent of damage. The determination of the adjuster or the manufactured home representative shall be binding on both the Resident and Palm Shores for purposes of this appendix.

- Should such an inspection determine damages exceeding 50% of the replacement value, then Palm Shores, at its sole option, may require the home be removed and replaced by a new or newer home. Resident shall have the residence removed within 45 days of notification by Palm Shores.
- Should the inspection determine damages of less than 50% of replacement value, Resident shall then have at Resident's sole option, the right to repair the residence or replace it.
- In the event Resident chooses to repair the residence, Resident shall repair or replace all components necessary to restore the residence and all improvements to an approved standard determined by management equal to or better than its previous appearance and function. Resident shall use all new replacement materials and components. All work must comply with the Alterations and Improvements Guidelines of the Sublease agreement and with all permits, rules and regulations of Horry County
- In the event Resident chooses to replace the residence, Resident shall be subject to and shall comply with the replacement guidelines as stated in the Waterford Oaks Handbook.

G. RESALES

Palm Shores must approve the resale of all homes to remain in Waterford Oaks after the sale.

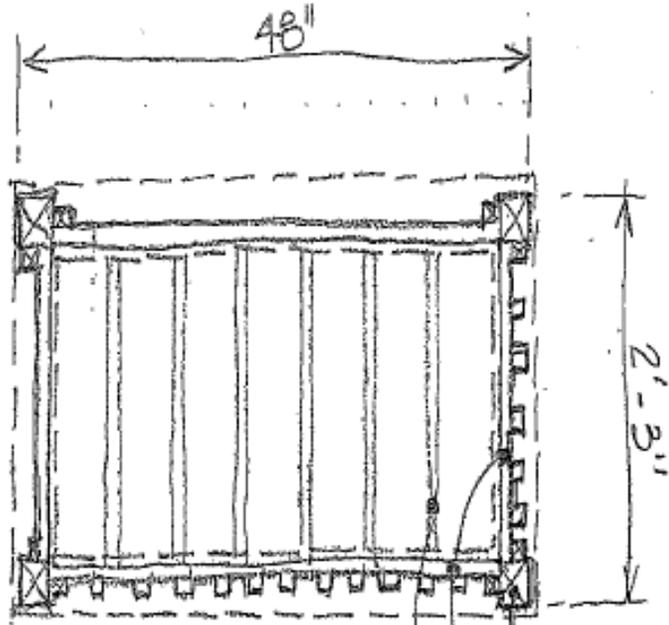

- 1- If a home is sold by the homeowner and is to be removed from the park, it must be removed prior to or by the expiration of the tenant's lot lease.
- 2- If a lease renewal to a tenant is not extended to the owner of a home, then:
 - a) Palm Shores can approve the resale of the home to remain provided that an acceptable replacement tenant purchases the home, and a new lease is executed with a new tenant no later than the expiration of the prior tenant's lease term.
 - b) Palm Shores can deny the resale of the home to remain in the park and the home must be removed before the end of the lease term.
- 3- If a home is approved by Palm Shores management for resale, then all residents wishing to market their homes within the park must contact the office form copy of the Resale Guidelines.
